Important Reminder for All Schools

AED Maintenance and Supply Order Update

Dear NCDSB Staff,

As part of Heart Niagara's ongoing commitment to the safety of students and staff, we would like to provide important information on regular maintenance and checks on Automated External Defibrillators (AEDs).

Please take the following actions:

1. Check your AED units:
    - Inspect the physical condition of your AED and cabinet.
    - Ensure that the unit is easily accessible and visible.
    - Verify the green status indicator is active.

2. Verify expiry date:
    - Check the expiration dates of both pads and batteries.
    - Replace any expired items immediately to ensure the AED is ready for use in case of an emergency.

3. Order new supplies (when required):
    - We have updated our supply order form to streamline your purchasing process. Please see the order form included.

We appreciate your attention to this crucial matter. Keeping our AEDs in optimal condition can save a life in emergencies. Thank you for your cooperation and dedication to the safety of our community.

For any questions or further assistance, feel free to reach out to us at ally.kerr@heartniagara.com or 905-358-5552 x 112.

Sincerely,

Ally Kerr
Program Development Manager
Heart Niagara Inc.
