# An Easter Prayer

Christ the Lord is risen  
And, as all the world rejoices,  
Singing of his glory  
With such joyful hearts and voices,  
May you find that Easter brings you  
Peace and faith and hope anew,  
And may these blessings fill your heart  
With joy the whole year through.

## Student Attendance

As we progress throughout the rest of the school year, we would like to take a moment to emphasize the importance of regular school attendance and the responsibility that comes with it. There have been many absences during this school year, and it is difficult to get your child caught up.

Consistent attendance is crucial for your child's academic success and overall development. When students attend school consistently, they benefit from:

- **Continuous Learning:** Each school day is filled with valuable lessons and activities that build upon previous knowledge. Missing even a single day can disrupt this learning process. Students are expected to attend class regularly. Regularly means attending school 90% of the time during the school year. If a student missed 10 or more days during Term One, then they have missed too much time. The goal is to be at school for 90% of the days. If someone is absent for 10 days or more during Term 1 and 20 days or more by the end of Term 2, then their attendance rate is less than 90%.
- **Punctuality:** Our school day begins at 8:40am and Period 1 classes begin at 8:50am. If your child is late, they miss valuable instruction time. If lateness becomes a habit, then they are constantly missing valuable lesson time from that Period 1 subject.
- **Social Development:** School is not just about academics; it's also a place where students develop social skills, build friendships, and learn to work collaboratively with others.

- **Routine and Discipline:** Regular attendance helps students establish a routine, which is essential for developing discipline and time management skills.
- **Academic Performance:** Each lesson taught builds on the previous one. Regular attendance ensures that students don't miss out on important concepts and information, making it easier to understand and retain knowledge. Being present at school helps students stay up-to-date with the curriculum, making them better prepared for assignments, projects, and tests.

We understand that there may be times when your child is unable to attend school due to illness or other unavoidable circumstances. In such cases, it is important to follow these steps to ensure minimal disruption to their education:

- **Notify the School:** Please inform the school/classroom teacher as soon as possible if your child will be absent. All student absences must be reported through our School Messenger/Safe Arrival system. This helps us keep accurate attendance records and ensures that teachers are aware of the absence. If your child is going away on a vacation, please let your teachers know ahead of time so we can be proactive with assignments that they will miss.
- **Catch Up on Missed Work:** Encourage your child to catch up on any missed assignments or lessons. Most teachers post a lot on the NCVLE, it is your child's responsibility to check what has been posted and to gather any missed handouts when absent from school.

Your support and cooperation are vital in ensuring that your child receives the best possible education. Together, we can help them develop the skills and habits necessary for a successful future. We thank you for your attention to this important matter.

## Classroom Organization for 2025-2026

Plans are in the preliminary stages for the 2025-26 school year. Our Beamsville community continues to grow, and we are awaiting approval from the board office on the number of classes and teachers required for the 2025-2026 school year. Many situations unfold from now until the beginning of a new school year. As experts in education, we will base all student placement decisions on what is in the best interest of the entire student grade-level community at St. Mark. These decisions are made in good faith and based on, but not necessarily limited to, the following considerations: individual needs of students; academic strengths, weaknesses, and needs; social and emotional needs of the students; special needs; resource support requirements and personnel

allocation; and classroom teacher strengths. **Due to the size of the school and anticipated changes including teacher placement, no requests will be taken this school year.** We ask that you trust the decisions that our staff make regarding your child's placement for next school year.

## Nutrition Break Reminder

This year our school board moved to a balanced day for all Niagara Catholic schools. This means that the students have two 40 minutes breaks in the day to eat and have recess. We are finding that a number of students are eating all of their packed food during the first nutrition break, not leaving any food for the second break. We kindly ask that you talk to your child and remind them that the food they bring is to be split between the two breaks. If they are hungry, it might be advantageous to send more food with your child.
