BACKGROUND INFORMATION

Saint Paul Catholic High School currently has a Weight Room and Culinary Arts Lab. The main scope of work for the subject project is:

2. The existing Weight Room will be renovated to become a Fitness Room and will receive new flooring, ceiling and painting.
3. The existing Culinary Arts Room will be upgraded to current standards, for example, additional hand washing stations, improved ventilation, stainless steel food preparation counters in a new Culinary Arts Facility. A new heating/air conditioning unit will be installed and new ceiling, lighting and painting are included.
4. Two small rooms (caretaker and resource) are being displaced and will receive new rooms near the Library Information Centre.

This project was tendered with a closing date of June 23, 2016. Chapman Murray Associates Architects Inc. was the architectural firm for this project.

In accordance with the Boards Purchasing/Supply Chain Management Policy, the Director of Education is recommending to the Board of Trustees that Brouwer Construction (1981) Ltd., who was the low bidder, be awarded this project. Their bid was \$606,300 (HST excluded).
