REPORT TO THE BOARD FEBRUARY 23, 2021

THE SPECIAL EQUIPMENT AMOUNT – SEAIT SOFTWARE REPORT

BACKGROUND INFORMATION

Purpose:

The Special Equipment Amount (SEA) provides funding to school boards to assist with the costs of equipment essential to support students with special education needs. This equipment is to provide students with accommodations that are directly required and essential for one or more of the following: attending school, accessing the Ontario curriculum, accessing a board determined alternative program.

Boards have a responsibility to meet the special education needs of their students. SEA funding assists with the equipment and training costs associated with meeting these needs. Boards will develop an internal process that equitably allocates the funding to support student needs in an equitable and timely fashion. Boards must internally allocate sufficient funding to meet these needs and to ensure that all students with special education needs who require equipment have access to appropriate equipment.

Boards must maintain documentation for purchases made with SEA funding that correlate equipment to the students for whom it has been purchased. School boards are required to submit a list of all purchases made, by category, annually to the Ministry. This report includes a list of expenditures and additional reporting questions. All documentation maintained by boards may be requested for review by Ministry staff.

Background:

The Niagara Catholic Student Support department has been maintaining documentation for SEA claims since the inception of this funding mechanism in the early 2000's. Prior to purchasing this software from LEARNstyle Ltd., Niagara Catholic staff completed each claim using a cumbersome and time-consuming paper process. Individual files required 10 separate tabs of information and typically 25-30 pieces of paper. In a typical year, Niagara Catholic would generate several hundred files. Student Support staff gathered this information from school records which led to duplicate copies of student information being stored in several central filing cabinets. This was inefficient, time consuming and prone to error.

Since the purchase of SEAIT software in September 2019, Niagara Catholic has processed over 700 SEA-claims. With average annual SEA-related expenditures totaling nearly \$750,000.00, this software has virtually eliminated central storage of all paper related to SEA documentation. Student Support staff continue to manage the electronic SEA files, but all documents remain in the student's OSR at their school. Schools can now initiate the SEA-claim process using this software and staff can complete the purchasing process remotely.

Conclusion:

The implementation of SEAIT software has led to tremendous efficiencies and greatly improved accuracy when reporting to the Ministry on SEA purchases. Students are receiving equipment quickly because schools can initiate the claim and central Student Support staff can manage files while working remotely. Paper files are no longer generated which frees up valuable time and space. Overall, SEAIT software has allowed schools and staff to focus on delivering necessary accommodations to students with special education needs instead of managing cumbersome paper files.

The Special Equipment Amount – SEAIT Software report is presented for information.

REPORT TO THE BOARD FEBRUARY 23, 2021

NIAGARA CATHOLIC 2021 ENROLMENT FIGURES

BACKGROUND INFORMATION

The registration portal for Niagara Catholic's 2021/22 school year opened in mid-December. Our first online application came in on Sunday, December 6, at 9:49 p.m. for a child registered for JK at Sacred Heart Catholic Elementary School.

As of February 19, we had **1,024** students pre-registered for the 2021-2022 School year. In comparison to two previous years (below), this is a **significant** increase:

- November 2018 – February 2019 - 504 registrations
- November 2019 – February 2020 - 691 registrations

These numbers represent new applications and registrations in all grades. As is the case each year with new registrations, these numbers may also include in-system moves - meaning, some of these students may already be in the system. A breakdown of new applications for each grade is attached.

Possible explanations for the dramatic increase in registration numbers may include parents who held off registering First Year Kindergarten students this past year during the pandemic as Kindergarten registration is not mandatory and have now chosen to register them in Year 2. Virtual workplaces have led to an increase in families from the GTA/GTHA moving to Niagara in search of a better quality of life. Other reasons include the elimination of on-line registration with a significant improvement in user-friendly on-line registrations. Finally, a targeted and focused on-line registration campaign for both Kindergarten and Secondary schools resulted in greater impact and views by potential families.

Specifically, the 2020 - 2021 Kindergarten campaign generated 1,000, 000 impressions targeting 60,000 people on Facebook, Instagram and Spotify vs. 800,000 impressions in the previous year.

In secondary, there was an intentional move away from board marketing to individual school marketing (team focus vs league focus) in order to highlight and target specific communities. Each Catholic secondary school was provided \$750 from the central advertising budget to create an ad to promote their open houses. This contribution (\$6,000) was largely offset by savings on the elimination of leased signs for elementary open houses, which comes with an annual cost of approximately \$4,800.

Overall, the total cost of paid advertising on the social media part of the campaign was \$18,000, broken down as follows:

- \$8,000 elementary
- \$8,000 secondary (\$1,000 allocated to each school's campaign)
- \$1,000 Spotify elementary
- \$1,000 Spotify secondary

A further \$2,000 has been set aside to run another campaign in the spring/summer for both panels.

Our Secondary Ads were targeted to students aged 13 and 14 and their parents on Instagram. Students and families were identified through postal codes, so only qualified audiences in a particular school's catchment area would view the advertisements. This allowed for targeted campaigns and efficient use of resources with no wasted funds spent on advertising to individuals outside of Niagara. These ads were run on Spotify, using targets for these same demographics.

Each of these campaigns were supported by strong organic campaigns at the central and school level, leveraging spread by followers. A PowerPoint of the breakdown is attached.

Appendix 1 shows a breakdown of new registrations by school/grade.

Appendix 2 shows an overview of our 2021/2022 registration campaign.

The Niagara Catholic 2021 Enrolment Figures report is presented for information.

Strategy Review

AWARENESS

We needed to get the message of kindergarten registration in front of moms of children aged 1-5 years old.

TRAFFIC

We wanted to drive traffic to niagaracatholic.ca so moms can learn more about how open houses were taking place this year and how to register their little one for kindergarten.

REGISTRATION/ OPEN HOUSE

In addition to driving traffic, we wanted moms to register their little ones for kindergarten. Or, if the decision was not made yet on which school/school board their little one was going, we at least wanted them to register for the virtual open house.

- For Facebook, we tested 2 call-to- actions: learn more and preregister. Preregister performed better in terms of % or users clicking through and cost per click. (.51% vs .37% CTR, \$1.34 vs \$1.76 CPC). This was likely to the higher intent call to action.
- For this campaign we had a higher click-through-rate of .51% compared to .47% from the previous year.
- Impressions saw an increase of over 200K compared to last year
- In terms of engagement, the learn more call-to-action produced more post reactions, post comments, and post shares

REPORT TO THE BOARD FEBRUARY 23, 2021

FINANCIAL REPORT AS AT JANUARY 31, 2021

BACKGROUND

In August 2020, the federal government announced the Safe Return to Class Fund, with an initial phase of \$381 million provided to Ontario. This funding supported key policy initiatives related to school reopening, including health and safety, personal protective equipment (PPE), student transportation, and remote learning. The second phase of investments provided under the Safe Return to Class Fund, totaling an additional \$381 million, has now been provided by the federal government. This funding focuses on priorities to support the learning, health and safety of students for the remainder of the 2020-21 school year, detailed below, including mitigating some potential learning gaps that may have developed during the pandemic.

Optimizing Air Quality and Ventilation

The Ministry of Education (the ministry) will provide \$50 million to support the acquisition of additional portable high-efficiency particulate air (HEPA) filters and other immediate options to improve air quality and ventilation, including air quality monitors or other retrofits, repairs or upgrades to provide immediate improvements to ventilation and airflow, with an emphasis on poorly ventilated spaces

Health and Safety Funding

The ministry will provide \$64.55 million in health and safety funding. This funding can be used to offset costs incurred by district school boards and isolate board school authorities associated with acquiring PPE and critical supplies and equipment (CSE) supplies, including for student transportation, beyond what has been provided through the MGCS supply chain. In addition to this investment, the ministry will continue to coordinate and provide PPE and CSE supplies through the MGCS supply chain to support health and safety.

Student Transportation

To recognize the important role that student transportation service providers have in ensuring enhanced health and safety measures, the ministry will provide \$5 million to address cost pressures related to COVID-19. This is in addition to the \$65.5 million student transportation funding for enhanced health and safety measures announced in August 2020.

Additional Devices

As the ability to pivot to remote learning is a key priority given the uncertain nature of this pandemic, the ministry will provide \$80 million for additional connectivity and technological devices, such as laptops and tablets, to support school boards in procuring about 160,000 additional devices province wide.
