1. Nature of Illness (do not provide diagnosis):		

^{* &}quot;Nature of the Illness"(or injury) suggests a general statement of a person's illness or injury in plain language without any technical medical details, including diagnosis or symptoms. Although revealing the nature of an illness may suggest the diagnosis, it will not necessarily do so. "Nature of illness" and "diagnosis" are not congruent terms. For example, a statement that a person has a cardiac or abdominal condition or that s/he has undergone surgery in that respect reveals the essence of the situation without revealing a diagnosis.
