ATTENDANCE SUPPORT PROGRAM: DEFINITIONS AND PROCEDURES

Definitions of Absenteeism

Non-Culpable or Innocent Absenteeism occurs when an employee, through no fault of his/her own, is absent from the workplace because of a personal illness, disease or injury. The reason for the absence is not the concern; rather, it is the need to meet attendance expectations.

The Attendance Support Program (ASP) recognizes that employees with non-culpable absenteeism may require assistance to attend work regularly and meet attendance expectations.

Culpable or Responsible Absenteeism refers to absences from work for which the employee is found to be accountable. Some examples of culpable absences are: failure to attend work without notifying the employer; late for work or leaving early; and abuse of leave. Employees with culpable absences are subject to progressive discipline in accordance with associated Board Policies, Administrative Guidelines, Procedures, Collective Agreements and Terms of Employment. It is required that culpable absences be directed to Human Resource Services for further direction and advice and are not intended to be addressed in the Attendance Support Program (ASP).

Absence Reporting

Employees are required to attend work as scheduled, with the understanding that there will be times when employees are unable to attend work due to a legitimate personal illness, or injury.

In order to ensure a consistent and equitable approach throughout the Board, all employees are required to report his/her own absences for all vacancies through the normal reporting procedures (Smartfind Express) within the required timeframe.

Process of Addressing Absenteeism

The process of addressing absenteeism is supportive in nature. The intent is to understand the absences, provide support, discuss the impact the absences are having on the specific school, department or location, and identify support services that are available to the employee. This process of addressing absenteeism will allow sufficient time for the employee to address issues so he/she will attend work regularly in the future.

ABSENCE THRESHOLD INDICATORS

Attendance threshold indicators to address attendance concerns are defined as a rate of absenteeism equivalent to 3.5% of the total working days of the employee (i.e.3.5% of 194/3.5% of 260).

It is the responsibility of all supervising administrators (Director of Education, Superintendent of Education, Controller of Facilities Services, Principal, Vice-Principal and Managers) to identify the absences and/or circumstances which may necessitate a meeting with the employee when;

- i. the Attendance Support Program threshold has been reached or exceeded and/or;
- ii. the types of absences include, but are not limited to:

The Human Resource Services Department is entitled to make reasonable follow up requests and seek periodic updates. Requests shall be sent to the employee who shall be responsible for authorizing the medical practitioner to respond in a timely fashion. The medical confirmation and follow up requests will be required to be provided in the attached Medical Certificate form (Appendix A).

ATTENDANCE SUPPORT PROGRAM: DEFINITIONS AND PROCEDURES

Definitions of Absenteeism

Non-Culpable or Innocent Absenteeism occurs when an Employee, through no fault of his/her own, is absent from the workplace because of a personal illness, disease or injury. The reason for the absence is not the concern; rather, it is the need to meet attendance expectations.

The Attendance Support Program (ASP) recognizes that employees with non-culpable absenteeism may require assistance to attend work regularly and meet attendance expectations.

Culpable or Responsible Absenteeism refers to absences from work for which the employee is found to be accountable. Some examples of culpable absences are: failure to attend work without notifying the employer; late for work or leaving early; and abuse of leave. Employees with culpable absences are subject to progressive discipline in accordance with associated Board Policies, Administrative Guidelines, Procedures, Collective Agreements and Terms of Employment. It is required that culpable absences be directed to Human Resources Services for further direction and advice and are not intended to be addressed in the Attendance Support Program (ASP).

Culpable absences will be managed through the process of progressive discipline.

Absence Reporting

Employees are required to attend work as scheduled, with the understanding that there will be times when employees are unable to attend work due to a legitimate personal illness, disease or injury.

In order to ensure a consistent and equitable approach throughout the Board, all employees are required to report his/her own absences for all vacancies through the normal reporting procedures (Smartfind Express), within the required timeframe.

Process of Addressing Non-Culpable Absenteeism/Innocent Absenteeism

The process of addressing non-culpable absenteeism is supportive in nature. The intent is to understand the absences, provide support, discuss the impact the absences are having on the specific school, department or location, provide support and identify support services that are available to the employee. This process of addressing absenteeism will allow sufficient time for the employee to address issues so he/she will attend work regularly in the future.

ABSENCE THRESHOLD INDICATORS

Absence Threshold—is the established number of occurrences over a rolling 12 working month period. When an employee's absences reach the determined threshold, the process of supportive intervention with administration will commence to discuss the level of absenteeism, having regard for the personal circumstances of the employee.

Identified Absence Thresholds are as follows:

Partial (0.5) or full day (1.0): An equivalent of 10 occurrences for 10 and 12 month employees

Absences beyond 9 occurrences will follow the requirements as per legislation and Board Policy.

The Absence threshold will be reviewed every two years by Senior Administration. Employees will be notified of the initial threshold and any subsequent changes thereafter.

The goals that are set within any phase of the multi-level process are specific and unique to each employee's circumstances.

Attendance threshold indicators to address attendance concerns are defined as a rate of absenteeism equivalent to 3.5% of the total working days of the employee (i.e.3.5% of 194/3.5% of 260).

It is the responsibility of all supervising administrators (Director of Education, Superintendent of Education, Controller of Facilities Services, Principals, Vice-Principals and Managers) to identify the absences and/or circumstances which may necessitate a meeting with the employee when;

- i. the Attendance Support Program threshold has been reached or exceeded and/or;
- ii. the types of absences include, but are not limited to:
 - A pattern of absenteeism (e.g. Mondays and Fridays, PA Days)
 - Absences due to personal illness, personal appointments, and leaves related to personal or family matters
 - Absences due to workplace injury and/or illness
 - Frequent absences of short duration
 - Unclear rationale for absences
 - Unauthorized absences

2. SUPPORTIVE INTERVENTION HAS FOUR (4)DISTINCT PHASES

Prior to any Support Phase Meeting, consultation will occur between Human Resources Services and the Supervisor.

When attendance goals have been achieved, within any of the review periods, the employee remains in the Attendance Support Program (ASP), and their absences are monitored by the Coordinator of Attendance Support for a period of up to 12 working months.

Employees who do not reach or exceed the established threshold during the 12 working month review period will exit from the Attendance Support Program.

To provide consistency, an interview check list must be completed, during the meeting/interview, at every phase of the process.

HEALTH AND MEDICAL INFORMATION

Health and Medical information is among the most sensitive information that employees provide to the employer, Board. All health and medical information will be treated with the utmost respect and confidentiality. The Board acknowledges and shall strictly adhere to the legislation pertaining to personal information under the Personal Health Information Act.

If the employee indicates at any step that there is a medical condition or disability contributing to their attendance challenges then the supervising administrator should discuss the situation with the Coordinator of Attendance Support Program so that appropriate steps can be taken.

Medical information is required for several reasons:

- 1. To provide Human Resources Services Department with the necessary information to ensure that appropriate accommodation strategies can be explored and to ensure compliance with the Human Rights and Workplace Safety Insurance Legislation.
- 2. To medically verify absences as outlined in the respective collective agreements or terms and conditions for employees.
- 3. To verify that the employee is sick or fit to return to work.
- 4. To staff and replace personnel appropriately.

The Human resources services Department may request medical confirmation of illness or injury confirming the dates of the absence, the reason therefore (omitting a diagnosis), the employee's prognosis and any limitations or restrictions. Medical confirmation will be required to be provided by the employee as determined by the Human Resources Services Department for absences of five (5) consecutive days or greater. The board is entitled to make reasonable follow up requests and seek periodic updates. Requests shall be sent to the employee who shall be responsible for authorizing the medical practitioner to respond in a timely fashion. The medical confirmation and follow up requests will be required to be provided in the attached Medical Certificate Form (Appendix A)

DEFINITIONS

<u>Definition of Asthma</u>

According to the Ontario Lung Association (www.on.lung.ca), asthma is very common chronic (long-term) lung disease making it difficult for a person to breathe. Persons with asthma have sensitive airways that react to triggers; such as poor air quality, mold, dust, pollen, viral infections, animals, smoke and cold air. When the airways react to a trigger, they become narrow due to swelling and squeezing of the airways resulting in less air getting through to the lungs and less air getting out.

Symptoms of Asthma

Symptoms of asthma include acute episodes of coughing, wheezing, difficulty breathing, shortness of breath and chest tightness. Symptoms can vary in severity, as they can be mild or moderate and affect activity levels, or they can be severe and life threatening.

Medication

"Medication" refers to any medication prescribed by a health care provider and may be administered to a student or taken by the student during school hours or school related activities.

Emergency Medication and Administration of Medication

"Emergency Medication" refers to medication that is administered by a staff member to a student at the time of an asthma exacerbation; i.e. reliever inhaler or stand-by-medication.

Employees of the Board may be preauthorized to administer medication or supervise a student while the student takes medication in response to an asthma exacerbation with the consent of the parent/ guardian or student.

If an employee of the Board has reason to believe that a student is experiencing an asthma exacerbation, the employee may administer asthma medication even if there is no authorization.

Immunity

The Act to Protect Pupils with Asthma states that "No action or other proceeding for damages shall be commenced against a Board employee for an act or omission done or omitted by the employee in good faith in the execution or intended execution of any duty or power under this Act."

PURPOSE

The procedures outlined will establish an appropriate response when a parent/guardian or adult student indicates to the Principal, in writing, that a student/adult student has been diagnosed with asthma and that the student/adult student will require assistance or will have easy access to their prescribed reliever inhaler(s) medication at the first sign of an asthma attack with consent from the parent/guardian/student.

PROCEDURES

The Board shall:

- Ensure that all schools identify students with asthma as part of the registration process or following a diagnosis, to gather necessary asthma related information from parents/guardians and the student.
- Provide asthma education and regular training opportunities for all staff, employees and others, in direct contact with students on a regular basis, on recognizing and preventing asthma triggers, recognizing when symptoms are worsening, and managing asthma exacerbations. The Board will ensure that all administrative, teaching, support staff and others are familiar with the *Asthma Policy* and with students and staff who have been diagnosed with asthma.
- Review the Board's Asthma Policy as part of the Board's regular policy review cycle.

SCHOOL STAFF TRAINING

All administrative, teaching, support staff and others at the school must familiarize themselves with students and staff members with asthma and the Board Asthma Policy.

A Niagara Region Public Health Nurse from the School Health Program shall be contacted to provide training to all staff on the use of reliever inhalers at the beginning of each school year or as soon as an at-risk individual(s), student/adult student has been identified at the school.

Should staff change at any time throughout the year, it is the responsibility of the Principal to inform and provide training for new staff member(s), occasional teachers and support staff.
