Allergy Aware School

ALLERGY AWARE SCHOOL – ANAPHYLAXES

Within our school community, there are several students who have a life-threatening allergy (anaphylaxis) to foods, predominantly to peanuts and tree nuts (e.g. almond, cashew, hazelnut, pistachio). We feel the best way to reduce the risk of accidental exposure to these students is to respectfully ask for the co-operation of the parents/guardians within this school community to avoid sending peanut butter or products with peanuts listed in the ingredients. There is a wide range of nutritious foods available to pack for your child. Visit www.eatrightontario.ca for suggestions. For more information on anaphylaxis, visit www.anaphylaxis.ca or www.aaia.ca We are working hard at preventing accidental exposure. It is also important that we have common routines throughout the entire school. **There are many shared areas (washrooms, fountains, gym, library, computers, etc.) students could come in contact with allergens.** The teachers will explain the importance of the following health and safety routines to the students in their classrooms:

1. Wash your hands with soap and water before and after eating.
2. Do not bring food that contains peanuts/tree nuts.
3. Do not accept food from other students especially if you have food allergies.
4. Snacks are not permitted outside in the schoolyard.
5. Dispose of all food waste properly.
